Symbios Consulting and Nuqul Tissues (FINE) celebrate their partnership success

After more than a one year of partnership, Symbios and Nuqul Tissues celebrated the success of 6 six sigma projects implemented in the Al-Sindian factory affiliated to Nuqul Group. The projects achieved savings of around 2 million EGP and 75 percent of Al-Sindian personnel were trained as Yellow Belts, Green Belts or Six Sigma Champions.

Al-Sindian's top management team highlighted the success in changing the operating culture due to the Six Sigma trainings.

Mr. Mohamed Barakat, the Six Sigma Deployment Manager said people were very skeptical first and thought implementing these projects were risky, but with trainings, they started to get very motivated and worked hard.

"Seeing some of the initial results, they started enjoying and loving this line of thinking," Barakat said.

Bob Walker, Al-Sindian's director and Dr. Tareq Abughazaleh said that people were getting involved more and more, which made them feel the success was theirs.

"Six Sigma is a concept that I use now in my daily activities; I think in Six Sigma," said Medhat Fawzy, Sales Manager of Sindian

"For every Egyptian pound put in the production process, we made a return on investment of 28 EGP. I am very happy with their achievement; they took it seriously," Said Eng. Maged Younan..... [Read more](#)
